

Let's Go Psycho!

Those Damn Crows

All now out of hand we don't even understand
Power the risk technology
Oh no, oh no
Sure thing let's pretend nothing has to ever end
Sometimes it's not clever to be clever AI
Oh no, oh no

Old man looking down, what does he see?
And old man, tell me now if you agree
And old man what's the plan, this is obscene
Don't go, psycho!

Get out of my way (get out of my way)
It's a constant price you pay
Out there, it's a war
Get out of my way (get out of my way)
Let those ones and zeros play
Out there, it's a war
Don't go, psycho!
Don't go, psycho!

Cut ties criticize watch us rise to our demise
Racing to fill this God shaped hole
Oh no, oh no

Old man looking down, what does he see?
And old man, tell me now if you agree
And old man what's the plan, this is obscene
Don't go, psycho!

Get out of my way (get out of my way)
It's a constant price you pay
Out there, it's a war
Get out of my way (get out of my way)
Let those ones and zeros play
Out there, it's a war
Don't go, psycho!
Don't go, psycho!

Had the chance to speak with God
And asked what he'd want us to be
He said, boy, now listen to me or don't listen to me
You lot are the problem not me

Sometimes, though it's not enough
We're brave enough to stand up and fight
Sometimes we give a shit
And sometimes none of this makes no fucking sense!

Don't go, psycho!
Don't go, psycho!
Don't go, psycho!
Don't go, psycho!

Get out of my way (get out of my way)
It's a constant price you pay
Out there, it's a war

Get out of my way (get out of my way)
Let those ones and zeros play
Out there, it's a war

Don't go, psycho!
Don't go, psycho!
Don't go (let's go)
Don't go (let's go)
Let's go psycho!
