

## Long Time Dead

Those Damn Crows

Take your sticks and stones  
And build a fortress just for me  
I won't let you in again  
Learn how to let things go  
Only then will you truly know  
Life's just a playground... it's time to play

Live now, it's a long time dead  
Now it's all so clear to me  
One shot's all you really got, take a chance

Live now, it's a long time dead  
Best things, no they won't come easy  
Choose your own track, never look back again

One life's all you got  
Why wouldn't you make the most of it?  
Say yes to the things that scare you most  
I'll take what I can, I'm a grateful man  
Raise your hand, let me hear you say

It's what I live for  
Until my heart gives out  
It's not a trial run  
And I don't need ya!

Listen to yourself  
Don't need nobody else  
Life is not a test
