

## Man On Fire

Those Damn Crows

I don't know what you're looking for  
Only you can say for sure  
Call it a warning you can't rewind  
What is it you want the most?  
Self awareness - diagnosed  
You can't see, through your misery

I remember, better days?  
I won't wait in line or waste my time on them  
Count your blessings hear them say  
Is it almost there?, almost found?  
Out of reach, wont keep me down cause

I can't be the one who's left behind  
I'm the man on fire want the world to the know  
I can be the one who redefines  
I'm the man on fire, you're the last to know

Angels on the radio  
The devil wants to steal the show  
Outta the dark and he wears my smile  
Why are you so serious?  
Is it cause I'm dangerous?  
You're so afraid of what you don't understand

Darker lessons brighter days  
You're like embers burning  
Slowly turning grey  
I was born to disobey  
Practice like you never win  
But living like you never lose cause

I can't be the one who's left behind  
I'm the man on fire want the world to know  
I can be the one who redefines  
I'm the man on fire, you're the last to know

Walk with me, and we'll face the, unknown  
Run with me leave everything you know  
Light the fuse and watch the fire grow  
Let it burn and feel the fire flow  
Man on fire, you're the last to know
