

No Surrender

Those Damn Crows

It's a moment in time
Where we all cross the line
Tortured by mistakes
That led me to these thoughts

'Cause I wanna win
Dreaming isn't a sin
I'm on the other side
Ready to risk it all
For everything

You said my eyes weren't open
You said my mind was blank

At the edge unafeard
Where only winners are made
A place where most of us will break
But if you wanna achieve
You gotta make and believe
I'm [?] everyone can say
No surrender

First in the dirt
I'm always willing to help
Too bad too many times
I'm closer to where I want to be
Are you always afraid
And now you're ready to fade
In a world that's full of matter
I've found nothing does

At the edge unafeard
Where only winners are made
A place where most of us will break
But if you wanna achieve
You gotta make and believe
I'm [?] everyone can say
No surrender

If I can see it, if I believe it
And I know that they're coming for me, coming for me
make it known when they're coming for me, coming for me now

And forever
I've seen that all before

I am the voice of reason
I've learned to bide my time

At the edge unafeard

At the edge unafeard
Where only winners are made
A place where most of us will break
But if you wanna achieve
You gotta make and believe

I 'm [?] everyone can say

No surrender

No surrender
