

## Wake Up (Sleepwalker)

Those Damn Crows

If you had just one wish  
Would you. stop all this?  
Would you turn it round?  
If you could just foresee  
Tell me where you'd be?  
Would you shut it down!

Wake up

A heaven and hell carousel inside your mind  
A master plan to deceive you by design  
Taking a ride on the devils wing  
One eye to see what the angels bring  
But I can't find a way out

Cause you stole thoughts and minds  
We all need saving one more time  
Clone our souls the walking blind  
In a daze you close your eyes  
Wake up

I don't need no convincing to comply  
Interacting with stories based on lies  
Walk and talk we sleep  
Where the demons meet  
We will shut it down

Cause you stole thoughts and minds  
We all need saving one more time  
Clone our souls the walking blind  
In a daze you close your eyes

Wake up

I see through all of you just an outcast  
While you bleed, barefooted on the broken glass  
Kill the truth, blame the youth  
Insurrection  
Warning sign blur the line  
Misdirection

Cause you stole thoughts and mind  
We all need saving one more time  
Clone our souls the walking blind  
In a daze you close your eyes  
Sleepwalking till you die

Wake up
