

## Everybody Dies

### Those Poor Bastards

Some people live 'til the age of ninety-four  
Some people die before they are born  
Who gets to choose? I guess it's just fate  
The Reaper spins his hourglass  
The earth does shake

Everybody dies everybody dies  
Everybody dies everybody dies

Some people get a bullet in the gut  
Some people die from a gangrenous cut  
Is there some way to gain a few years  
Or does the Grim Reaper  
Harvest our fears?

Everybody dies everybody dies  
Everybody dies everybody dies

Sickness  
Death  
Sickness  
Death  
Sickness  
Death  
Sickness  
Death  
Which sad fate do you like best?
