

Something Evil

Those Poor Bastards

There's something evil in you
And it is growing stronger
A hungry shadow creeping
You cannot fight much longer

Get that evil out of you
We gotta get that evil out
Get that evil out of you
We gotta get that evil out

You have been causing mischief
Among the civilized
You rascal when they catch you
There'll be no time for lies

Get that evil out of you
We gotta get that evil out
Get that evil out of you
We gotta get that evil out

Old sawbones he can't fix it

The preacher's powerless
I've seen some deeds unholy honey
But none as bad as this

Get that evil out of you
We gotta get that evil out
Get that evil out of you
We gotta get that evil out

Go walk through burning coals now
Kick rattlesnakes around
Unnatural and violent
Demonic force unbound

Get that evil out of you
We gotta get that evil out
Get that evil out of you
We gotta get that evil out
