

## Smoke Pigs

Thou

Please calm down  
With all the violent rhetoric  
Some people who put on a badge  
Are just trying to do some good  
My dad, my mom, my uncle, my aunt  
My brother, my sister, my daughter, my son is a cop  
Is a cop, is a cop, is a cop  
I don't want to hear  
Another word about  
Bribery

I don't want to hear  
About racial profiling

Broken bones, or prison rape  
Or another unarmed kid  
Filled from head to toe with fifty government-issued bullets

There is a fundamental flaw in your desire  
There is a psychological deficiency in policing others  
Those who maintain a structure of unjust laws  
Those who bow to the province of the few  
Those who coerce others under the implicit threat  
Of violent subjugation, of violent subjugation  
Your reign is at an end  
Your reign is at an end  
When they attack in the name of the law  
We will retaliate in the name of liberty
