

# Sleepless

Thousand Below

And I can't tell if I'll make it on my own  
Maybe one day I can learn to see this through

And I can't tell if I'll make it on my own  
Tell me do you know the feeling  
Maybe one day I can learn to see this through  
And I just gotta hear you say

I've been caught up shaking alone  
I hate these sleepless nights  
Spending too much time in the shade  
But I'm hoping I'll be alright  
I'm sick of the feeling, sick of the haunting  
I'm sick of the lonely, empty bed  
I'm sick of the moments, you leave and you know it  
Now that I'm falling apart instead

And I can't tell if I'll make it on my own  
Maybe one day I can learn to see this through

And I can't tell if I'll make it on my own  
Tell me do you know the feeling  
Maybe one day I can learn to see this through  
And I just gotta hear you say

Tell me you need me as much as I need you  
Cause really I'm just sleepless without you  
So let me hear it  
Cause really I'm just sleepless without you

I've got this shadow hanging over me, source of the misery  
Do you see me going into the gray  
Shadow hanging over me, source of the misery  
Just take me away

I can't tell if I'll make it on my own  
Maybe one day I can learn to see this through

And I can't tell if I'll make it on my own  
Tell me do you know the feeling  
Maybe one day I can learn to see this through  
And I just gotta hear you say

Tell me you need me as much as I need you  
Cause really I'm just sleepless without you  
So let me hear it  
Cause really I'm just sleepless without you
