

# Vein

## Thousand Below

The substances are killing us and we're blind.  
To the failed state of mind, taking over, weakened.  
Suicidal medication in our blood.  
I'm a victim and it's killing us. Couldn't even listen.

I don't know how to say it to you,  
When I can't even help myself.  
I battled my own use, know it's the cold truth.  
I don't want us to end up on the shelf.

Needle to your vein,  
Killing like a pill to your brain.  
Needle to your vein.

Promise you'll walk the path, do you still care?  
Promise you'll walk the path, who am I now?

I don't know how to say it to you,  
When I can't even help myself.  
I battled my own use, know it's the cold truth.  
I don't want us to end up on the shelf.

I lost my friend, myself, and my lover.

I lost my friend, myself, and my lover.  
I lost my friend, myself, and my brother.  
I lost my friend, myself, and my lover.  
I lost my friend, myself, and my brother.  
I lost my friend, myself, and my lover.  
I lost my friend, myself, and my brother to the poison.

I don't know how to say it to you,  
When I can't even help myself.  
I battled my own use, know it's the cold truth.  
I don't want us to end up on the shelf.
