

My fans treat me like the FBI's most wanted list
They see him like that's him
I'm moving different like three SUV's and they tinted
Put a stick up in her name, she move like secret service
Got a Victoria Secret spring catalog, you could read it
And she held it down for me so, uh, she deserve it
Get her a Icebox chain, I iced her out cause' she worth it
A nigga like me don't ever be simping for these bitches but she gon'

Last slice of pizza but we split that shit both ways
Hot boy, just keep it brief for me if it's a cold case
No money in it, why the hell we even wasting time
These niggas swear to god they flip nickles and some dimes

These niggas ain't even my runner up, they ain't competition
No contest, we never win by decision
We gon' do him dirty, crack his ribs, that's a mission
Pancakes and toast, get that bread early, flip it
2015 we had that glass no plastic sipping
All the best things I want in life discontinued
She a snack, she off the market but still on the menu
I'm with one other person and yet I'm rolling deep

ski mask with infrared beams
They be tryna' give me time, I can't do that shit
Finest lawyer in the game, ask
Put magic city diamonds on my pinky cause' I'm fancy
I don't need no stripper, that ice be dancing
Nigga be pulling up to the crib tryna' kidnap your bitch
Fuck that phone call shit, we pulling up and we bussing
Niggas be thinking that they slick, hell nah' we gon' get it
Swear they got your best interest and I ever trust her
She started off with I upgraded to classy
Now she want Ferragamo, Louis Vuitton and Gucci
From Abercrombie & Fitch, I got her out of that mix
Hulu, Netflix, she ain't used to that shit
She claimed her place in the kitchen because she used to the dishes
I ain't petty, fuck a silent treatment
Red, white, and blue, that's all American, that's the flag
I can't fuck with lame bitches, give em' dick then they brag
