

BUDDAH ARMS

ThouxanBanFauni

I ain't never satisfied but I try to be
Posted up outside with them sticks, them bullets bumblebee
Had to hit Mohammed Ali, ain't no dodging these
AR-15 spit them .223's
Armed and dangerous, I feel like Buddha, all these dots on me
Tryna' build a case against your boy, so they watching me
Undercover cars following me so they could build a lead
First, they gotta' catch up, SRT got super speed

When you behind that wall, in them handcuffs, in them shackles
You gon' see who love you for real and who got your back
Thought he was my brother but he cracked
Fauni why you always so distant? I can't be attached
Gang-gang with them rags, don't throw in the towel, fuck a white flag
Beefing and trolling, up on the net, don't do that
All in my mentions, just like Twitter we gon' find where you're at
Internet gangster, call you IG, you get touched and tagged
Pussy lil' boy we know you work at the mall and where your momma at
You could go to church, get baptized, just can't save your ass

I ain't never satisfied but I try to be
