ThouxanBanFauni

12Hunna on the beat  
Kayoh Cook It Up

I'm feeling real good, I'm fully flared  
The diamonds, they bling and they blow and they glare  
These niggas be racing like turtles and hare  
From one at a time, to fucking in pairs  
She said I'm too rough when I fuck, pull her hair  
All that lame shit you on, keep that shit over there  
I'mma hit me a lick with my soldier, I share  
And you know we in town, your bitches just stare  
Tryna push all my buttons, you better not dare

Zombie Xanny, walking dead  
Trying to mislead, get filled with lead  
Shia LaBeouf, put holes in your head  
All these niggas think they protected  
Came in this hoe with a nine millimeter  
Big ass stick and a Smith & Wesson  
We don't walk around with no vests  
Baby, I got my own protection  
I be doing this shit for real  
Get money everyday, it ain't no question  
Wet up your whip and we shoot up your momma house, talking 'bout smoke, I send a message  
I'm 'bout my bag and my business, I get all this money, you can't help but respect it  
Real niggas bring up my name in the hood, in the city, the trenches, I'm well respected  
I want the body without all the feelings, I'm giving her dick and then neglecting  
She wanna send me a paragraph message  
Really mad 'cause I ain't even read it  
Came in this shit with a whole lot of money, I'm stacking that bread, and I'm stacking that cheddar  
All of my niggas, we leaning real heavy, I'm getting that feta, that feta, that feta

I'm feeling real good, I'm fully flared  
The diamonds, they bling and they blow and they glare  
These niggas be racing like turtles and hare  
From one at a time, to fucking in pairs  
She said I'm too rough when I fuck, pull her hair  
All that lame shit you on keep that shit over there  
I'mma hit me a lick with my soldier, I share  
And you know we in town, your bitches just stare  
Tryna push all my buttons, you better not dare

Stainless steel, gripping on wood grain  
Call her a pirate 'cause she got that booty, I plank on that booty and she walk the plank  
My niggas get it for real, fuck your rank  
My niggas shoot your ass down for some rank  
Came in this shit and I love the  
Nigga want war, we gonna smoke 'em like dank  
These niggas be joking, they clowns, be playing  
I'm in this shit, came with that flaming

Keeping that fire and I'm firing, no safety  
Well aware of all the risks I'm taking  
Betting high, gambling, know what's at stake  
Life on the line, all them chances I take  
These niggas be beat up like bitches, they faded  
While you was hating we took all your ladies  
At first she was straight, I gave her a perc  
She bi, she fucking on bitches all day  
Threesomes, orgies in my place  
Guess I'm a lesbian, fucking on gays  
La-la land, flew out to LA  
We smoking your body, boy, smoking your face  
These niggas is pussy, don't got what it takes  
Don't hate the player and don't hate the game

I'm feeling real good, I'm fully flared  
The diamonds, they bling and they blow and they glare  
These niggas be racing like turtles and hare  
From one at a time, to fucking in pairs  
She said I'm too rough when I fuck, pull her hair  
All that lame shit you on keep that shit over there
