

I NEED JESUS

ThouxanBanFauni

Look, everybody on their phones, I'm just in my vibe
Niggas be on the internet all day I'm living my life
I had to give up my ego, that shit fuck with my pride
Niggas be thinking they getting the best of me, hell nah we slide
I ain't even been in the 8 that long I just got off a flight
Niggas be getting bread out of L.A I left, to keep my shine
I do whatever I want, y'all do what you do from time to time
If it wasn't for Johnny most of y'all would've been dead no lie
If it wasn't for mum I probably would've still been doing time
If it wasn't for Ben I probably wouldn't never seen my own grind
If it wasn't for J-man I probably always been misguided
If it ain't worth me dying, I would've never seen this time
If it wasn't for unc' I would've had an army by my side
If it wasn't for palm I would've never learnt 'bout that lie
If it weren't for nana I would've never been this kind
If it weren't for grandpa I would've never learnt to fly (Uh)

God, I just thank god, hope that it's a god, I need Jesus in my life
God, Thank God, I need Jesus in my life

I know it's temporary I die one time that shit won't scare me
Niggas say I'm an asshole in my family tree it's hereditary
I done had to take that and try out my vocabulary
I was never tryna even be no player this whole time baby I wanna get married
Could say I love you but I lied 'coz I feel fried
She say she love me and I do, but I know she lying
I go to magic then hit church just to pay my time
They say I'm toxic reckless I pay these niggas no mind

God, God, I hope it's a God, I need Jesus in my life
God, God, I pray its a god, I need Jesus in my life

I get it right now
I'll get it later
When I'm dead my legacy live on 'till its faded
You'll fly to earth and with my legacy gon' live on 'till the earth deflated
Little bitch, pulled up in this hoe with a 50 drum stick
I don't have to do too much just say it
I just gotta get it off my chest and I'll be ready
Uh, uh, uh
I don't gotta try and get in my vocabulary 'coz we made it
She ain't fuck with me back then, she do now she 2 faced (uh, uh, uh)
Niggas don't even gotta be faded, y'all niggas overrated (pshh, uh, uh, uh)
I fold these fuck them fucking with me but fuck it who am I to say it (uh, u
