Purp, purp, purp, purp, purp, purp, purp, purp, purp, purp, purp, purp

Purple raindrops
Purple raindrops
Purple raindrops
Purple raindrops
Foreign I copped from a chop shop
Cruisin' around in a hot box
That's your number 1 hoe, that's my mascot
Catch me outside with the cash out!
These hoes, nasty
I just give em' all headshots
Blasphemy, blasphemy
Talkin' down get your head shot
Diamonds imported from Africa
Slave nigga turned master
Actavis straight from NASA
Feelin' your hoe like a pastor
Who is you tryna come after
What you worry about don't even matter
None of these bitches gon' matter
None of these fuck niggas matter
I mix the mess with the matter
Fill up my body with matter
Nothing you say even matter
Nothing you think even matter
Niggas wanna' be on my page
Niggas wanna' be on my pattern
I'm booted I'm headed to Pluto
I'm booted I just passed Saturn

I did this shit for the culture
Cus this shit right here my culture
Poker face no poker
Then it came with the Vultures
34 my soul
3400 soldier
Pillsbury dough boy
Pillsbury dough odor
Cookies mixed with the diesel
Sprinkle that shit with sulfur
That boy on go
Vroom vroom in my motor
She was really gorgeous
Hit it then ignored it
I don't even know her
I don't even know her
VVS my arm
Gave her cold shoulder
Then dust off my shoulder
Drink with crystal boulders
Shout out Flip Doja
My cousin from Magnolia
G Wagons, Rovers
Or lowkey in a Focus
Bad bitch from Florida
Look like a pretty lotus

She was really gorgeous, she was really gorgeous, she was really gorgeous, s
he was really gorgeous
Gave a fuck about it
Fucked it then ignored it
She was really gorgeous, she was really gorgeous
Gave a fuck about it
Fucked it then ignored it

Purple raindrops

None of this shit even matter
None of this shit even matter
None of these lil' bitches matter
None of these fuck niggas matter
None of these bitches gon' matter
None of that shit even matter
I mix the mess with the matter
Fillin' my cup up with matter
Fillin' my body with matter
Stuffin' that mud in the matter
Matter, matter, matter, matter
Matter, matter, matter, matter
(Purpp, purpp, purpp, purpp)
Purpp, purpp, purpp, purpp
Purpp, purpp, purpp, purpp
