

NO DOUBT

ThouxanBanFauni

Indigo

Okay, Embasin, whatever

You could doubt it all you want but the fact of the matter still remains the same

On my way to the top, on the road to victory, glory all in my name

You could fly, get discouraged to stop, but don't swerve in that lane

Check yourself, I always check myself, keep my emotions tame

When I'm out, champagne bottles pop, fuck they talking about

Give or take, hustle the gamble table, I'm the poker popper

Blowing shit, spent money on dumb shit, still wasn't up in no drought

As far as the eye can see, I'ma go past that, make my momma proud

Fuck police, keep a pole with me, serve and protect my peace

Young niggas been going hard, smack the concrete

Ain't enough money in the world to feel worry free

Came along way from making in Decatur where the fires be

Got guns like John Wick, tailored suit, top me

For who all despise me, for who all despise me

Playing both sides don't like that, shooting at who all the spies be

Got a new stick and it came with a scope, that's where my eyes be

Never complain, everything go according to plan

Doing my thing, doing my, doing my thing

Feel like the last king, Joe Exotic, tiger, honey cocaine

Turn this shit to rain, no big deal, all part of the plan

Far from average, baby I raise the bar, I set the standard

How you mad at me for doing me, get lit, lit 'em up like lanterns

Shawty don't trip, no you strip, talking about you a dancer

It's all love, not knocking no hustle, you was broke and found your answer

You could doubt it all you want but the fact of the matter still remains the same

On my way to the top, on the road to victory, glory all in my name

You could fly, get discouraged to stop, but don't swerve in that lane

Check yourself, I always check myself, keep my emotions tame

When I'm out, champagne bottles pop, fuck they talking about

Give or take, hustle the gamble table, I'm the poker popper

Blowing shit, spent money on dumb shit, still wasn't up in no drought

rought

As far as the eye can see, I'ma go past that, make my momma proud
