Bought me some heat for my waist
You can tell by my bitch and my taste
Got an igloo for my wrist, I dropped the Xan' in a mist
Cartier frames on my face, Cartier's blocking your shade
Pop the trunk get the K out the case
Make two stacks in the trap then I lace

Hit a stain on the license plate

Throwing up outside the party, throwing up outside the Audi
I just shut down the whole party, I skrt off like Ricky Bobby
Came to the fashion show with a bitch and she geeked as fuck
Double cup when I walk in, in the function jumping
And my backpack all so bunking
Thumbing through the stack I'm thumbing
Turn a buck into the blunt
Turn a rock into a block, you best believe I free my whole block
Drop them bricks off at the dock, and my wrist got a rollie clock
'Cause these niggas they be watching me
They watching me they gon' plot
Serving gas if you want that boof, got syrup baby by the gloop
Keep a band on me who knew the beam with a scope and it came with a view
Bitch brought her friend and she wanna fuck too
Call up a Lyft for them when I'm through
Tell my Uber driver throw off the fucking roof
It wasn't you, if I wasn't Fauni
I'd probably also be another nigga hating on me

Killing shit like Johnny Dillinger, aka aka the dolodo-dolodo
Chopping the brick, give me the work and I'll flip it like spatula
She suck me she suck me like Dracula
