ThouxanBanFauni

(Xenon, xenon, xenon)
Xenon, xenon, xenox

All I see is xenon, my lungs filled with xenon
Xenon, xenon, now we up in xenon
Mind still on money, my body just in xenon
No oxygen, just xenon, xenon, xenon
Copped a hand cannon from Kenan
Sapphire diamonds freezin'
Taliban where I pledge my allegiance
The other shit for the peons
Already shoot for no reason so
Please don't give me a reason, uh
You niggas been green all season
Fuck you over and make you try to mean shit
All I see is xenon, my lungs filled with xenon
Xenon, xenon, now we up in xenon
Mind still on money, my body just in xenon
No oxygen, just xenon, xenon, xenon

You gon' hate on my life 'cause you're lost
Hand on the wheel her head in my crotch
Xenon turn it up a notch
C.E.O, your bosses boss
Pop the trunk I change terrains, got a pump I added some range
From the jump start knew I would change, from the jump start knew I would change
Molly in crumbs it came with caine
Oh you disabled give you come cane
Freshly squeezed handpicked lemons for lemonade
Baby girl just behave, taking that shit to the grave
Stomp 'em in the pavement thinking he paved the way
I'm booted I'm off in xenon
Got my 30 from Keon, that's when I'm poppin' you peons like
S. Kennedy Leon
Take her out shopping yep she gettin' her spree on
Mr. Bans with a allegiant, I pop a bitch like a Capri sun

All I see is xenon, my lungs filled with xenon
Xenon, xenon, now we up in xenon
Mind still on money, my body just in xenon
No oxygen, just xenon, xenon, xenon
Copped a hand cannon from Kenan
Sapphire diamonds freezin'

The other shit for the peons
