

This world is fucked
This world is fucked, we're born into hate
Kill ourselves over greed
This world is dead, if we never change
Slaughter life with deceit

Lie, rape, steal and murder
Kill or be killed
Repent for your sins
Life must resolve
Find help for us all

Don't censor life from my eyes
Don't censor me

We don't have the right to know
What we're fighting for
We don't have the right to know
Look beyond what media shows
There's something deeper, seek the truth
We have the right to know

Lie, rape, steal and murder
Kill or be killed
Repent for your sins
Life must resolve
Find help for us all

Hatred, disregard for life
Killing humanity
Shadow us in secrecy
We are servants to feed their greed

Fuck you
