

Deathwish

Three Days Grace

Every day like it's the last
There's no future, there's no past
Never read the warning signs
Riding high on borrowed time

With two X's on my eyes

I'm living life like a death wish, born to be a bit reckless
I may never live to tell, I'm living life, living life like a death wish
Smash the world with a clenched fist
Even if I hurt myself, I'm living life, living life like a death wish

I want it all and all at once
I don't care what danger comes
Inhibitions put aside
Live or die another night

With two X's on my eyes

I'm living life like a death wish, born to be a bit reckless
I may never live to tell, I'm living life, living life like a death wish
Smash the world with a clenched fist
Even if I hurt myself, I'm living life, living life like a death wish

Be careful what you wish for

Never read the warning signs (Warning signs)
Riding high for one last time

Living life like a death wish, born to be a bit reckless
I may never live to tell, every night, I'm living life like a death wish
Smash the world with a clenched fist
Even if I hurt myself, I'm living life, living life like a death wish

I'm living life like a death wish
