

# Dominate

## Three Days Grace

(One, two)  
Here we fucking go

The sun don't rise  
The sun don't set  
It's just the world spinning  
Think about it  
You sacrifice  
To be the best  
There's a price to winning  
Think about it

There's nothing more dangerous  
Than a man with something to prove and nothing to lose  
There nothing more dangerous  
Than a man with nothing to lose

I will dominate  
Seize the day  
Ring the bell  
Storm the gates

I will dominate, dominate through the pain, through the pain  
Mine to give, mine to take  
I was made to dominate

I came to conquer  
On to the next  
My self control  
To self respect  
See me coming (see me coming)  
Feel the threat (feel the threat)  
Get under your skin (under your skin)  
And into your head

I will dominate  
Seize the day  
Ring the bell  
Storm the gates

I will dominate, dominate, through the pain, through the pain  
Mine to give, mine to take  
I was made to dominate

There's nothing more dangerous  
Than something to prove  
Nothing more dangerous  
Than nothing to lose

I'm here to claim  
The battleground  
Annihilate  
You can't stop me now

I will dominate  
Seize the day  
Ring the bell

Storm the gates

I will dominate, dominate, through the pain, through the pain

Mine to give, mine to take

I was made to dominate

I was made to dominate
