

# Every Other Weekend

Three Days Grace

I'm done feeling like this  
So down, so dark, so numb  
And I'm done feeling like this  
Like I did something wrong

I miss the way it used to be  
When we were family

Now I hate you  
I only ever see you on Wednesdays  
And every other weekend  
What made you think it was OK to run away?  
I'm going off the deep end

I miss the way it used to be  
When we were family  
Now I hate you  
I only ever see you on Wednesdays  
And every other weekend

I can't understand how we could come undone  
Is love really that bad that you have to turn and run?

I miss the way it used to be  
When we were family

Now I hate you  
I only ever see you on Wednesdays  
And every other weekend  
What made you think it was OK to run away?  
I'm going off the deep end

I miss the way it used to be  
When we were family  
Now I hate you  
I only ever see you on Wednesdays  
And every other weekend

Maybe someday you'll see it my way  
When worlds apart is just too hard to take  
You're here and now you're gone  
And I can't move on

I can't understand how we could come undone  
Is love really that bad that you have to turn and run?

Now I hate you  
I only ever see you on Wednesdays  
And every other weekend  
What made you think it was OK to run away?  
I'm going off the deep end

I miss the way it used to be  
When we were family  
Now I hate you  
I only ever see you on Wednesdays  
And every other weekend
