In Waves

Three Days Grace

Destabilize, no shore, no solid ground in sight
Don't heal in time, these feelings only amplify
Something in the undertow, I know it's never gonna bring you ho
me
You were always the hardest to save

Lost you in the waves
I lost you where the tide breaks
Can I blame it on a distant God who gives to take away?
Lost you in the waves
And the world just keeps rolling
I can't cut the connection 'cause I always hear your voice in w
aves

Can't say goodbye, can't face the words you're not alive
And I wonder, am I, am I, am I?
'Cause I'm never calling off the search, even talking 'bout clo
sure hurts
You were always the hardest to save

I lost you in the waves
I lost you where the tide breaks
Can I blame it on a distant God who gives to take away?
I lost you in the waves
And the world just keeps rolling
I can't cut the connection 'cause I always hear your voice in w
aves

From the wreckage, crashing waves, the pain
I'm never gonna let you fade away
I can hear you through the noise, your voice
I'm never gonna let you fade away
Send a message through the void, your voice
I'm never gonna let you fade, you were always the hardest to sa
ve

Lost you in the waves
I lost you where the tide breaks
Can I blame it on a distant God who gives to take away?
I lost you in the waves
And the world just keeps rolling
I can't cut the connection 'cause I always hear your voice in w
aves

I can't cut cut the connection 'cause I always hear your voice
in waves
