

Kill Me Fast

Three Days Grace

I've tried
But I still can't read your mind
Wonder if there was a sign
That somehow slipped me by

If you're right at the edge or you've found someone else
Let me know
Oh

Tell me when it's over
Don't make me ask
Come a little closer
And break me like glass
If you're planning to go, just don't leave any hope
That you're ever coming back
Tell me when it's over
Kill me quick, kill me fast

I'll stay
Sleeping in the bed we made
And I hope you know, I'll wait
Never love no one again, mm, not again

If you're just at the start, and I'm still in the dark
Let me know
Ooh

And just tell me when it's over
Don't make me ask
Come a little closer
And break me like glass
If you're planning to go, just don't leave any hope
That you're ever coming back
Tell me when it's over
Kill me quick, kill me fast

Well, go and take what you want, was it me all along?
Yeah, I know, I know

But tell me when it's over
Don't make me ask
Come a little closer
And break me like glass
If you're planning to go, just don't leave any hope
That you're ever coming back
Tell me when it's over
Kill me quick, kill me fast

Kill me quick, kill me fast
Kill me quick, kill me fast
