

Mayday

Three Days Grace

We'll never say, we'll never say Mayday

Welcome to the end, just take a number
Just get used to the influence you're under
It's the same old story of
Wanting it all but it's never enough
The more you know, you know, you know nothing

We walk like dead people who haven't died yet
We ride like passengers without a pilot
We be losing our minds, but we all try to hide it
It's hard to keep fighting when you're barely surviving

We'll never say, we'll never say Mayday

Just wait in line for your rights and your privilege
Then follow the leader right off the cliffs edge
All your dreams are down below
Buried under broken bones
The more you know, you know, you know nothing

We walk like dead people who haven't died yet
We ride like passengers without a pilot
We be losing our minds, but we all try to hide it
It's hard to keep fighting when you're barely surviving

Calm down, we'll be okay
Just some turbulence, we're on our way
We're going down, but not today
We'll never say Mayday

We walk like dead people who haven't died yet
We ride like passengers without a pilot
We be losing our minds, but we all try to hide it
It's hard to keep fighting when you're barely surviving

We walk like dead people who haven't died yet
We ride like passengers without a pilot
We be losing our minds, but we all try to hide it
It's hard to keep fighting when you're barely surviving

We're still alive
We're losing our minds

We'll never say, we'll never say Mayday
We'll never say, we'll never say Mayday
