

# Running Away

Three Days Grace

I'm thinking to myself  
That I've done something wrong  
That I've crossed the line  
Have you found out this time  
What led you to believe  
It's only you and me  
Do you see it in my eyes  
Have you found out this time

You see right through me  
Cause you're running away  
You keep turning your back on me  
I tried so hard  
But you're running away  
Please dont turn your back on me

I'm drinking by myself  
And oh, I'm going down  
But will you pick me up  
Will you leave me on the ground  
I led you to believe  
It's only you and me  
I can see it in your eyes  
That you found out this time

Don't just turn and walk away  
I can learn from my mistakes  
Don't throw everything away

You see right through me  
Cause you're running away  
You keep turning your back on me  
I tried so hard  
But you're running away  
But you're running away
