The Mountain

Three Days Grace

Every day I'm just survivin'
Keep climbin' the mountain
Even when I feel like dyin'
Keep climbin' the mountain

Another night I'm barely holdin' on
One step away from being dead and gone
Am I alive to die another day?
Is this life that I've been livin'
All that's meant for me?

Every day I'm just survivin'
Keep climbin' the mountain
Even when I feel like dyin'
Keep climbin' the mountain

Every time I think I'm over it
I wake up in the bottom of it all again
I'm still survivin', keep climbin'
Keep climbin' the mountain

The higher I go, the harder I fall
So I don't look down, I don't look back at all
And when I wish it all would turn to black
I try to see the light and push the darkness back

Every day I'm just survivin'
Keep climbin' the mountain
Even when I feel like dyin'
Keep climbin' the mountain

Every time I think I'm over it
I wake up in the bottom of it all again
I'm still survivin', I keep climbin'
Keep climbin' the mountain

So If I'm numb, already too far gone
And If I feel a pulsin', I can carry on
When I'm lost and want to fade away
I tell myself to live to die another day, yeah

Every day I'm just survivin'
Keep climbin' the mountain
Even when I feel like dyin'
Keep climbin' the mountain

Every time I think I'm over it
I wake up in the bottom of it all again
I'm still alive and keep climbin'
Keep climbin' the mountain, the mountain
