

Stand In The Road

Throne

still in a jam, look at you moving on involves stimulation
and forcing you to leave hurts me too, telling you to
move

stand in the road, I can't make you move
it makes it hard, hard to fill your shoes
if traffic were low, would you stay

staring at the highway
go and see the world, because you
because you've moved
stand in the road, I can't make you move
it makes it hard, hard to fill your shoes
can't find the ocean drowning in your pool
stand in the road, I can't make you move
