

Hell-Leprous-Slaughter-Reign

Throneum

War drums bit in deep black abyss
They call to battle, to destruction
Satan's regiments unhinge the gates
And run towards the light

Darkness comes in dense clouds of war
Nuclear bombs, toxic rains, contaminated winds
Worms cover everything, water is a black pitch
No air, no sun, no sky

Pandemonic warriors spread slaughter religion
Through ways of ancient bloody cults
Attack - from Baphomet's throne to fall of heaven
Hell-Leprous-Slaughter-Reign
