

# Blood On My Hands

## Through Fire

It's like my hands are tied  
I tried to survive, searching for some kind of feeling  
Am I still alive, give me a sign  
If I'm still breathing

Show me a reason  
I need some thing to believe in  
I've been reaching for truth  
I need something, to hold on to

So, wash away the blood on my hands  
Take my soul, take away all of my sin  
Help me escape the anger I feel within  
Bring me back again

It's like I'm paralyzed, I'm lost inside  
I'm somewhere far behind these walls  
Time to break down  
Pull me out, save me now

Wash away the blood on my hands  
Take my soul, take away all of my sin  
Help me escape the anger I feel within  
Bring me back again (back again)

Open my eyes, bring me to life (life)  
Wake me up this time, bring me to life (life)  
Open my eyes, bring me to life, life, life, life  
Wake me up this time, bring me to life (I really am)

Wash away the blood on my hands  
Take my soul, take away all of my sin  
Help me escape the anger I feel within  
Bring me back again

Wash away the blood on my hands  
Wash away the blood on my hands  
Wash away the blood on my hands  
Bring me back again...
