

Breakout

Through Fire

Nightmare Screams
Voices chasing me
The darkness creeps
Underneath my skin
Now we meet again

What do you want from me? (Want from me)
Whoa, you push then you pull
Why are you haunting me? (Haunting me)
Whoa, just let me go
Tear down these walls
As I watch you fall
Then rise above it all
This time I Breakout, Breakout
This time I Breakout, Breakout

The violence leaves
Scars all over me
And now the memories try and pull me back again
I thought you were dead, get the fuck out of my head

What do you want from me? (Want from me)
Whoa, you push then you pull
Why are you haunting me? (Haunting me)
Whoa, just let me go
Tear down these walls
As I watch you fall
Then rise above it all
This time I Breakout, Breakout
This time I Breakout, Breakout

Blackout the sky
Burn out the sun
Change is coming
You're about to hit the end

I've got blood red eyes
I've got a million scars
I'm taking back what's mine
I'll fight until I die

What do you want from me? (Want from me)
Whoa, you push then you pull
Why are you haunting me? (Haunting me)
Whoa, just let me go
Tear down these walls
As I watch you fall
Then rise above it all
This time I Breakout, Breakout
This time I Breakout, Breakout

This time I Break
This time I Break
This time I Break
This time I Breakout
