

Breathe

Through Fire

I fade to black
As I search for the light
Can you bring me back
From this unconscious life?
Can you show me the way?
I'm lost in the dark
I'm fallin' apart
Can you unbreak my heart?

So I can breathe
Before I suffocate
Before it's all too late
Before I die this way
I need to breathe
Before I slip away
While there's something left to save
Can you help me?
I need to breathe

I hear the angels calling
Can you send one down?
I see the demons crawling
They're everywhere around
Can you pull me out
From the mess I'm in
Before my lungs collapse
And there's no turning back?

I need to breathe
Before I suffocate
Before it's all too late
Before I die this way
I need to breathe
Before I slip away
While there's something left to save
Can you help me?
I need to breathe

It's time to weather this storm again
Can you help me find my way?
Give me strength
It's time to weather this storm again
Help me make it through
I need you
Oh!
God I need you
Oh!
God I need you

Can you hear me?
I'm screaming
I'm broken down
And bleeding
Help me make it through
I need you

I fade to black

As I search for the light
Can you bring me back
From this unconscious life?

(Help me) breathe
Before I suffocate
Before it's all too late
Before I die this way
I need to breathe
Before I slip away
While there's something left to save
Can you help me?

I need to breathe
Before I slip away
(Can you rescue me)
I need to breathe
Before it's all too late
(Can you rescue me)
I need to breathe
Before I die this way
(Can you rescue me)
I need to breathe
I need to... I need to... I need to...
(Can you rescue me)
I need to breathe
