

## Dead Winter

## Through Fire

We're paralyzed  
We'll never feel alive  
When were buried underneath the avalanche  
Buried underneath all of your lies  
Maybe we're out of time  
Maybe we'll never find another reason why  
When we're buried underneath the avalanche  
Buried underneath all of your lies

In a love so cold  
Like the dead of winter  
Because of you there's ice in my soul  
Is this what you wanted  
A love so cold  
Like a dead winter  
Dead winter

No one can rescue you  
No one can rescue me  
We're both too far gone  
To dig ourselves out of this grave  
Is this what you wanted  
To lie where you lay

In a love so cold  
Like the dead of winter  
Because of you there's ice in my soul  
Is this what you wanted  
A love so cold  
Like a dead winter  
Dead winter

Oh  
Is this what you wanted  
Is this what you wanted

In a love so cold  
Like the dead of winter  
Because of you there's ice in my soul  
Is this what you wanted  
Below zero  
In a love so cold  
Like the dead of winter  
Was it beautiful to fall like the snow  
Is this what you wanted  
A love so cold  
Like a dead winter  
Dead winter  
Dead winter  
Is this what you wanted  
A love so cold  
Like a dead winter  
Dead winter  
Dead winter
