

Devolution

Through Fire

We never learn our lesson, we keep regressing
Burning down everything we're building
We make bad decisions in bad conditions
No mercy left in the world we're killing

Devolve, destruct, in God we trust

Devolution, like a matrix moving
Backwards towards the end
Again and again
Devolution, what the fuck we doing
Moving faster towards the end
Again and again
Devolution

Running in reverse
Only makes it worse
This is gonna hurt
What the fuck are we thinking

Devolve, destruct, in God we trust

Devolution, like a matrix moving
Backwards towards the end
Again and again
Devolution, what the fuck we doing
Moving faster towards the end
Again and again

It will all come crashing down in the end
(In the end, in the end, in the end)
And madness is the sound you'll hear again
(Hear again, hear again, hear again)

Devolve, destruct, in God we trust

Devolution, like a matrix moving
Backwards towards the end
Again and again
Devolution, what the fuck we doing
Moving faster towards the end
Again and again

Devolution, what the fuck we doing
Again and again
Devolution, what the fuck we doing
Again and again

Devolution
