

## Die Sober

### Through Fire

I feel so damn dirty, I need to get clean  
I'm so sick of feeling sick, I'm sick of drinking gasoline  
So if I get one dying wish

Please don't let me die in like this  
I promise you I'll try  
But when I feel low, I wanna get high

I keep tripping, I keep slipping  
It's in my DNA, I'm addicted  
But my wounds are self-inflicted  
Oh, I keep tripping, oh, I keep slipping  
I know my life is problematic, cause  
I'm always fucked up like an addict  
I never meant to hurt myself, because of this hell  
I need to start over, I wanna get sober  
I never meant to hurt the ones I love  
Enough is enough, I need to start over  
Cause when I die, oh, I wanna die sober

So, take away this drink, and take away these drugs  
It's gonna be a hard pill to swallow  
But I want to live to see tomorrow  
So, I need to change my ways  
And have some better days  
I promise you I'll try  
But when I feel low, I wanna get high

Oh, I keep tripping, oh, I keep slipping  
It's in my DNA, I'm addicted  
But my wounds are self-inflicted  
Oh, I keep tripping, oh, I keep slipping  
I know my life is problematic, cause  
I'm always fucked up like an addict  
I never meant to hurt myself, because of this hell  
I need to start over, I wanna get sober  
I never meant to hurt the ones I love  
Enough is enough, I need to start over  
Cause when I die, oh, I wanna die sober
