

Medicine

Through Fire

You tell me I should swallow all these pills
But maybe you should swallow all your pride
You tell me that I'm I'll
I'm just sick of being fed of your bullshit lies

You're fucked up in the head
No it's not me it's just you again
So point the finger at yourself
'Cause you're the one who needs the help

I don't need you medicine
To fix me
No, I don't need your medicine
It won't kill me

I don't need your, medicine to calm me down
So get the fuck out
You can't save me from myself
'Cause you're the one who needs the help

I don't need your medicine
I don't need your medicine

You tell me that I'm crazy in the brain is 'cause you're making me feel insane
But I don't need a prescription
I think you're the one who needs more medication

You're fucked up in the head
No it's not me it's just you again
So point the finger at yourself
'Cause you're the one who needs the help

I don't need your medicine
To fix me
No, I don't need your medicine
It won't kill me

I don't need your, medicine to calm me down
So get the fuck out
You can't save me from myself
'Cause you're the one who needs the help

I don't need your medicine
I don't need your medicine

I'll never change for you
I'll never do what you tell me to
I like the way I am
A little messed up, yeah

I'll never change for you
I'll never be who you want me to
I like the way I am
A little messed up, yeah

I don't need your medicine

To fix me
No, I don't need your medicine
It won't kill me

I don't need your, medicine to calm me down
So get the fuck out
You can't save me from myself
'Cause you're the one who needs the help

I don't need your medicine
I don't need your medicine
I don't need your medicine
I don't need your medicine
