My Son

Through Fire

Nothing comes easy
To know what you're fighting for
Remember that there is so much more

Like living in the moment, and finding peace of mind
While you still have time

Always work hard, have integrity
It's nothing that you can't be
Never give up on your dreams
Cause it's nothing out of reach

My son, always you the best you can
Lean a helping hand, and be a good man
My son, always stand for what is right
Darkness tries to mend when you find a good fight

My son, oh my son

My father told me never back down from anything
My advice to you is the same
That's okay to be afraid, but never let fear control your fate

Cause you can do anything, if you work hard, have integrity
It's nothing that you can't be
Never give up on your dreams
Cause it's nothing out of reach

My son, always you the best you can
Lean a helping hand, and be a good man
My son, always stand for what is right
Darkness tries to mend when you find a good fight

My son, oh my son
Never give up
Never give up

My son, always do the best you can, and be a good man
My son, always stand for what is right
Darkness tries to mend when you find a good fight

Oh my son, oh my son
Oh my son, oh my son
Oh my son, oh my son
Never give up, never give up
No, never give up
Never give up
Oh my son
