

Over The Influence

Through Fire

You messed me up
You were my weakness
Couldn't get enough
But now I see just how deep your hooks were in to me
In to me

You took it all, everything I had
You held me hostage
Now I'm taking my life back

I was under your control
Like a vise, you gripped my soul
Now I'm breaking free
You're powerless to me
I will not live like this
I'm over the Influence

Now I know
It's time to break the cycle and let you go
But it's so damn hard
Living with these battle scars

You took it all, everything I had
You held me hostage
Now I'm taking my life back

I was under your control
Like a vise, you gripped my soul
Now I'm breaking free
You're powerless to me
I will not live like this
I'm over the Influence

I won't fall for you
I won't fall for this
I'm over the Influence
I won't fall for you

I was under your control
Like a vise, you gripped my soul
Now I'm breaking free
You're powerless to me
I will not live like this
I'm over the Influence

Over the Influence
I'm over the Influence
