

# Straightjacket

Through Fire

I'm living both feet in  
From zero to ten  
Yeah he'll should be running from me  
I'll never break or bend  
A little unhinged  
Cause that's who I was born to be

Maybe it's insanity  
But I'm never giving up on me  
I'll live before I die  
Through all the sacrifice  
You'll never see fear inside these eyes

It's a long road when everybody counts you out  
Don't count me out  
They say I'm crazy living for the ups and downs  
They say I'm losing my grip  
And I should just quit  
But if the straight jacket fits  
They say I'm losing my grip  
And I should just quit  
But if the straight jacket fits  
I might as well wear it  
Might as well wear it

I've got a misfit mind  
It runs all the time  
The voices I hear never sleep  
Yeah I'm a little unwell  
Cause you make me sick  
I'm over being underneath

Maybe it's insanity  
But I'm never giving up on me  
The feeling never dies  
It's always alive  
You'll never see failure in these eyes

It's a long road when everybody counts you out  
Don't count me out  
They say I'm crazy living for the ups and downs  
They say I'm losing my grip  
And I should just quit  
But if the straight jacket fits  
They say I'm losing my grip  
And I should just quit  
But if the straight jacket fits  
I might as well wear it

The feeling never dies  
It's always alive  
The feeling never dies  
It's always alive

It's a long road when everybody counts you out  
They say I'm crazy living for the ups and downs  
They say I'm losing my grip

And I should just quit  
But if the straight jacket fits  
They say I'm losing my grip  
And I should just quit  
But if the straight jacket fits  
I might as well wear it

I will never quit  
But if the straight jacket fits  
I might as well wear it  
I will never quit  
But if the straight jacket fits  
I might as well wear it

Might as well wear it  
Might as well wear it
