

# Stronger

## Through Fire

I breathe  
I breathe to see the truth  
It's not you anymore  
I don't need  
Your complications  
Greed is all you offer

Fuck that! I don't need that!  
You will never define me  
Fuck that! I don't need that!  
You will never complete me  
Fuck that! I don't need that!  
You will never control me  
Fuck that! I don't need that!  
You will never break me down

I can't believe in you any longer (Any longer)  
I am stronger  
I can't believe in you any longer (Any longer)  
I am stronger, stronger than you

You are empty, you are guilty, you are dead (You are dead)  
Dead to me and I'm never looking back (Back, back)  
I will leave you behind rusted (Rusted)  
Lost in time

Fuck that! I don't need that!  
You will never define me  
Fuck that! I don't need that!  
You will never complete me  
Fuck that! I don't need that!  
You will never control me  
Fuck that! I don't need that!  
You will never break me down

I can't believe in you any longer (Any longer)  
I am stronger  
I can't believe in you any longer (Any longer)  
I am stronger, stronger than you

You hold me under, but now I'm well  
(You're never, never gonna break me down)  
(You're never, never gonna break me down)  
And you ripped my heart out, but now I'm well  
(You're never, never gonna break me down)  
(You're never, never gonna break me down)  
And you stole my soul, but now I'm whole

Now I'm whole

Fuck that!

I can't believe in you any longer (Any longer)  
I am stronger  
I can't believe in you any longer (Any longer)  
I am stronger, stronger than you

I believe I'm stronger than you  
I believe I'm stronger than you  
I believe I'm stronger than you  
I believe I'm stronger than you  
I'm stronger than you  
I'm stronger than you
