

Stronger

Through Fire

I breathe
I breathe to see the truth
It's not you anymore
I don't need
Your complications
Greed is all you offer

Forget that! I don't need that!
You will never define me
Forget that! I don't need that!
You will never complete me
Forget that! I don't need that!
You will never control me
Forget that! I don't need that!
You will never break me down

I can't believe in you any longer (Any longer)
I am stronger
I can't believe in you any longer (Any longer)
I am stronger, stronger than you

You are empty, you are guilty, you are dead (You are dead)
Dead to me and I'm never looking back (Back, back)
I will leave you behind rusted (Rusted)
Lost in time

Forget that! I don't need that!
You will never define me
Forget that! I don't need that!
You will never complete me
Forget that! I don't need that!
You will never control me
Forget that! I don't need that!
You will never break me down

I can't believe in you any longer (Any longer)
I am stronger
I can't believe in you any longer (Any longer)
I am stronger, stronger than you

You hold me under, but now I'm well
(You're never, never gonna break me down)
(You're never, never gonna break me down)
And you ripped my heart out, but now I'm well
(You're never, never gonna break me down)
(You're never, never gonna break me down)
And you stole my soul, but now I'm whole

Forget that!

I can't believe in you any longer (Any longer)
I am stronger
I can't believe in you any longer (Any longer)
I am stronger, stronger than you

I believe I'm stronger than you
I believe I'm stronger than you

I'm stronger than you
I'm stronger than you
