

Take It All Away

Through Fire

Got aroused and rude
So washed up bleeding
Help me get my grave
I'm barely breathing
Open up my eyes
So I can see the light
I'm shining in the dark
Tear me apart

Take it all away now
The pain inside
Take it all away now
Let me live my life
Take it all away now
The hate inside
Take it all away now
Let me live my life

Tear away the skin
So I can find myself again
I need to feel something within
For my heart stops beating
Can you wake up my soul?
And don't let me go
Cause if I fall into this trap
I'm never coming back

Take it all away now
The pain inside
Take it all away now
Let me live my life
Take it all away now
The hate inside
Take it all away now
Let me live my life

(Save me from the sickness...)

Save me from this!
Save me from this!
Save me from this!
Save me from this!

You want it all, you can have it all
You want it all, you can have it all
You want it all, you can have it all
You want it all, you can have it all

Take it all away now
The pain inside
Take it all away now
Let me live my life
Take it all away now
The hate inside
Take it all away now
Let me live my life
Take it all away now

The pain inside
Take it all away now
Let me live my life

Save me from this!
Save me from this!
Save me from this!
Save me from this!
