

# The Road

## Through Fire

The sun sets in my eyes  
And just like always you're on my mind  
All these highway lines  
They help me count the miles down  
They keep me company tonight  
And no, I never wanna hit the breaks  
I don't wanna stop along the way  
'Cause every hour feels like days  
And every second feels like eternity  
Every time I'm away

I'm on the road, the road  
The road that leads to you  
Yeah, I'm on my way, on my way  
On the road, the road  
And I'll see you soon  
Yeah, I'm on my way  
Back to you  
Back to you

So I roll the windows down  
To feel the wind in my face  
'Cause it reminds me of how  
You love to be right here next to me  
And I cannot wait

I'm on the road, the road  
The road that leads to you  
Yeah, I'm on my way, on my way  
On the road, the road  
And I'll see you soon  
Yeah, I'm on my way  
Back to you  
Back to you

I'm a little bit closer now  
My heart keeps on racing  
I'm going faster, I'm tired of waiting  
I'm tired of waiting

I'm on the road, the road  
The road that leads to you  
Yeah, I'm on my way, on my way  
On the road, the road  
And I'll see you soon  
Yeah, I'm on my way  
Back to you

A little bit closer now  
A little bit closer now  
Back to you  
A little bit closer now  
A little bit closer now  
Back to you  
A little bit closer now  
A little bit closer now  
Back to you

A little bit closer now  
A little bit closer now  
Back to you
