

# Obey

## Throw The Fight

Trapped inside of this grave  
Letting life get the best of me  
Did I decide to obey?  
Digging up this deadweight  
Inside me  
Inside me

I get lost inside the tidal wave  
Open up my faith and say  
I'm not alone  
Open up my faith and say

Treated like you're a slave  
Love the weapons you hide from me  
Did you decide to obey?  
Will you ever take the blame?

I get lost inside the tidal wave  
Open up my faith and say  
I'm not alone  
Open up my faith and say  
Obey, obey with no mercy  
Obey, obey with no mercy  
I'm not alone  
Open up my faith and say

I get lost inside the tidal wave  
Open my faith and say  
I'm not alone  
Obey no mercy

Trapped inside this grave  
Digging up this dead weight  
Path of destruction

I get lost inside the tidal wave  
Open up my faith and say  
I'm not alone  
I'm not alone  
Obey, obey with no mercy  
Obey, obey with no mercy  
I'm not alone  
Open up my faith and say
