

Settle Your Sins

Throw The Fight

Let go of this heavy weight

Trapped inside your heart
Let in light

Clear your mind
This ship departs

Sinking down to the ocean floor
In the dark water, we soar

Gasp for breath and hold my chest
Look to the horizon
Settle your sins

A new start begins

The ocean tides break
Weathering the storm

The moonlight keep shining
The chills crawl up my spine

Sinking down to the ocean floor
In the dark water, we soar

Gasp for breath and hold my chest

Look to the horizon
Settle your sins
A new start begins

Save me from this place
that I'm living in

I'm drowning in this hell again

Save me
from this place

I'm drowning
in this hell again

Sinking down to the ocean floor
In the dark water, we soar

Gasp for breath and hold my chest

Look to the horizon
Settle your sins
A new start begins
