

## Wake up!

## Throw The Fight

(Wake up, wake up...)

Suck the oxygen away  
Pale face, your taste fades away  
Suck the life right out of me  
Please stay  
Don't go

Lightning strikes me  
Feel like I'm under attack  
Lightning hits me  
Put a knife in my back

Wake up sick feeling empty  
For anything real  
Wake up, wake up  
Keep searching for something real  
Fading in and out  
Fading in and out  
Wake up feeling empty

Suck the life right out of me  
Ice cold, dead heart  
Hold it over me  
Eyes glazed  
Over me, soulless and lost  
Please, come back to me

Lightning strikes me  
Feel like I'm under attack  
Lightning hits me  
Put a knife in my back

Wake up sick feeling empty  
For anything real  
Wake up, wake up  
Keep searching for something real  
Fading in and out  
Fading in and out  
Wake up feeling empty

(Suck the oxygen away  
Pale face, blue lips  
Watch you fade away)  
Suck the life right out of me  
Please, stay don't go  
Need you here with me  
Lightning strikes me  
Please stay, don't go  
Don't go!

Wake up, wake up  
Feeling empty  
With nowhere to go  
Wake up, wake up  
Wake up, wake up  
Fading in and out

Fading in and out  
Wake up, wake up  
Wake up, wake up
