The Field

Throwing Muses

We're lost again Great, oh just great We're lost again

Get your mouth out of the gutter Get your butt back to the sand If it gets any hotter Rock your baby in the sun And beg your big break We're us again

Shake your big weight
You'll crave again
The field has melted snow in summer
Back with lousy rain
One more star above the clouds
Is not such a bad thing
I have to say
I have to say
One more star above the buoys
Is not such a bad thing

Say it just say
We're safe again
Get your mouth out of the gutter
Get your butt back to the sand
If it gets any hotter
Take your baby by the hand
