

so done

thrown

Repeating every mistake
Failing in every aspect
Of this so called life I have learned to despise

Wasting my time, so empty inside
Oh my God, what the fuck is wrong with me?

There's nothing more to be said
To discuss or to evaluate
I was born to fail, another hopeless case
So do I really have to repeat myself?

There's nothing more to be said

I just can't seem
To feel content, remain serene
No matter what life throws at me
To have faith and be at peace
But I've gotten used to this misery

I keep wasting my time, so empty inside
Oh my God, what the fuck is wrong with me?

Needless to say, there's only me to blame
For every failure along the way
Needless to say, there's only me to blame
Excessive guilt, extended pain

All day, every day, just the same
Take me away from the extended pain
I have prayed for anything to change
But this world has silenced me

Oh, fuck this shit
This is it, I can't take this
I'm so done
Please, someone pull the plug
