

A Shining Abyss

Thulcandra

Into my vision, the darkest of all worlds
I am the first, and I will be the last
Into my frozen soul, where your remains will foul
I am the bringer of light, my abyss shines so bright

I bring the world death, fire and darkness
Engulfed the flames on the cross

A shining abyss, the last hope disappears
A shining abyss, I discover all your fears

Into my vision, the darkest of all worlds
I am the first, and I will be the last
Into my frozen soul, where your remains will foul
I am the bringer of light, my abyss shines so bright

I bring the world death, fire and darkness
Engulfed the flames on the cross
I bring the world death, fire and darkness
Engulfed the flames on the cross

A shining abyss, the last hope disappears
A shining abyss, I discover all your fears
