

# Good Thing

Thundamentals

I heard you want a love that lasts forever  
Nothing's ever set in stone  
One day I'll get my shit together  
I don't wanna let you go

Don't wanna fuck up a good thing  
Don't wanna fuck up a good thing

When I'm good I'm so good  
But my bad made you mad  
Maybe we're both misunderstood  
Got my eyes on the skies  
I see birds of a feather  
Maybe we just got overlooked

Find me eating calamari in the Kalahari Desert  
We some peasants out to get it  
Bed a baddie like a Bedouin  
Yeah I'm masculine eating mescaline  
Shit I know where this is headed  
Tab of acid now my cabbage feeling shredded like a lettuce  
I've been peeling back the layers  
Seeing multicoloured faces  
Man I'm wasted brain is melted like a Scandinavian glacier  
Are we stuck up in the same place in a constant state of stasis?  
I can't tell if our relationship's mirages or oasis

Don't wanna fuck up a good thing  
Don't wanna fuck up a good thing

When I'm good I'm so good  
But my bad made you mad  
Maybe we're both misunderstood  
Got my eyes on the skies  
I see birds of a feather  
Maybe we just got overlooked

I found the fountain of youth  
Walked through the sand and the snow  
I heard the sound of your voice  
When you howl at the moon  
Drown in the mood swoon  
Out of control  
A flower can bloom  
When I hand you a rose  
Dance on a rope  
With the shadows and ghosts in the land of the lost  
I'm a fan of the truth  
Could not give a fuck if it's cold  
I am in love with your soul  
I am the sum of the whole  
Under-evolved  
Vulgar demonic and bold  
Abominable  
Incredible Hulk  
I'ma stomp on a troll  
Rock in the roll

Piss in a tray  
Homie you give it away  
I put the yin in the yang  
If love is forever I'm kissing the flame

Don't wanna fuck up a good thing  
Don't wanna fuck up a good thing  
Don't wanna fuck up a good thing  
Don't wanna fuck up a good thing
